

06 March 2020

Dear Valued Customer,

**Coronavirus (COVID 19) update**

While global supply chains are currently being impacted by the reduced inbound and outbound shipping to and from China, Coventry Group Ltd is working closely with its suppliers and is receiving daily updates. We are currently holding good levels of inventory and are continuing to work closely with our key suppliers to ensure ongoing supply and minimise any disruption of supply to our customers.

We will continue to monitor the situation very closely and keep you informed of the latest developments.

If you have any concerns or require specific clarification on your individual requirements, please don't hesitate to call your local branch.

Best Regards,

Bruce Carter – General Manager  
Cooper Fluid
